Mr. Thomas Patten
Laboratory Manager
Inter-Mountain Laboratories, Inc.
1673 Terra Avenue
Sheridan, Wyoming 82801

Dear Mr. Patten:

In October, 2017 an on-site evaluation of the Inter-Mountain Laboratories, Inc. drinking water radiochemistry program in Sheridan, Wyoming was conducted under the direction of laboratory certification personnel from the U.S. Environmental Protection Agency Region 8. The purpose of this evaluation was to review your laboratory's radiochemistry methods to determine eligibility for certification under the Safe Drinking Water Act. Certification applies to drinking water compliance samples from water systems in the State of Wyoming and among Indian Country in Region 8.

Based upon recommendations from the radiochemistry on-site evaluation report and subsequent corrective actions, full certification is granted to Inter-Mountain Laboratories, Inc. in Sheridan for the parameters, methods, and time period specified below. Full certification for chemical and microbiological contaminants remains unchanged following your June 2017 on-site evaluation and is reflected in the following table.

The expiration date for each parameter is listed in the table above. Certification will remain in effect for the period specified under the conditions that the laboratory follows the specified methods and that Water Supply proficiency testing samples are successfully analyzed by the laboratory for each of the above parameters once per year. The term "Full" under "Certification Status" indicates that your

laboratory is fully certified to analyze drinking water samples for compliance monitoring purposes for the listed analytes using the specified analytical method or methods for the time period indicated.

If you have comments or questions, please contact Marcie Tidd, Region 8 Drinking Water Laboratory Certification Program Manager, at (303) 462-9476 (tidd.marcie@epa.gov).

Sincerely,

Debra H. Thomas
Deputy Regional Administrator
