

SOILS ANALYSIS

Since 1979, Inter-Mountain Labs (IML) has been providing complete analytical services throughout the West, including Texas, Montana, Wyoming, and New Mexico. IML is currently expanding the soil science staff in order to provide improved service and additional products. Soil testing services include, but are not limited to:

Mine soils and Overburdens

- ✓ Acid-Base Accounting, Acid-Base Balance
- ✓ Acidity
- ✓ Neutralization Potential
- ✓ Potential Acidity
- ✓ Exchangeable Acidity
- ✓ Nutrient Analysis
- ✓ Meteoric Water Mobility Testing

Electronic Reporting

- ✓ Lab reports available in Excel, pdf, and other formats.
- ✓ Custom reporting available

Topsoil / Agricultural Lands

- ✓ pH
- ✓ Nutrient Analysis
- ✓ Organic Matter
- ✓ Base Saturation
- ✓ Cation Exchange Capacity

Soil & Overburden Sampling

- ✓ 2", 3", 4" & 8" cores available
- ✓ modern, efficient Giddings sampling rigs
