

WATER QUALITY ANALYSIS

Inter-Mountain Labs (IML) has been providing high quality, comprehensive water quality analytical services since 1979. From our earliest projects in the Rocky Mountain corridor at our initial laboratory in Sheridan, Wyoming, we have applied progressive analytical technologies to projects across the nation and internationally.

Applications

- Drinking water (*SDWA*)
- Waste water (*NPDES*)
- Ground water
- Surface water (*CWA*)
- Discharge (*NPDES/WYPDES*)
- Runoff

Water Analyses

- Inorganic
- Organic
- Trace Metals
- Bacteriological
- Radiochemistry

Flexible Reporting

- Lab reports available in hardcopy, Excel, pdf and database formats.
- Custom reporting available
- Electronic DMR's

Certifications

- EPA Region VIII
- Montana
- Oklahoma
- Idaho
- Nevada
- A2LA Accreditation for LAUST program
